

# HYPER SENSORIAL

art workshops for children of all abilities, with artist Sofie Dieu

## Costume

08/04/22 10-11.30am

Pretending to be a water animal: imitate nature's patterns and colour your very own cape in fluoro colours. Wear your costume under a black light and see it glow!

## Projection

29/04/22 10-11.30am

Bush exploration along the water trail: hand edit photos of waterscape and project them in slow motion to explore light effects, colours, and the space your body occupies.

## Prop Making

22/04/22 10-11.30am

Water flows free and happy. It moves around rocks and other obstacles that the river brings. Birds and insects fly by and have a sip. This gives us endless ideas for printing birds and insects on fabric that will become... our river!
