

HIGH SCHOOL STATISTICS

1475 STUDENTS BETWEEN YEARS 7-12 FROM 7 DIFFERENT SCHOOLS ACROSS MORELAND.

RESILIENCE SURVEY 2019 SNAPSHOT

Resilience is the emotional strength to cope in spite of setbacks, barriers and limited resources.

The Resilience Survey collects and analyses information associated with the resilience of young people, measuring factors associated with their well being.

Moreland City Council has attempted to provide a snapshot of the statistics we have deemed to be most pertinent, showing both the strengths, and areas to grow. However, this is only a small section of the statistics available. If you'd like to see the rest of the data set, it can be accessed here: <https://tinyurl.com/vk538g3>.

HIGH/PRIMARY SCHOOL COMPARISON

Primary school students scored higher across every aspect of the resilience survey. However, rates of bullying and risky behaviours stayed consistent across the entire age range.

STRENGTHS

84% 

feel safe in the area where they live; at home and school.

90% 

are not bullied: online or in person.

94% 

do not engage in risky behaviours.

84% 

try hard at school.

80% 

eat well to stay well: have no problem with appetite

80% 

get along with people who are different to them.

AREAS TO GROW

30% 

believe they have a positive contribution.

44% 

have a healthy body.

48% 

have a healthy mind.

41% 

are engaged with learning.

37% 

have an understanding of self.

45% 

believe they are given useful jobs at school.
